Embrace + Encourage + Empower

Dance is poetry of the body - an expression of our self, our dreams, our desires through movement. Dance is a way of telling stories beyond words.

Our **GIRLS CHOREOGRAPH SUMMER CAMP** is a week long camp for aspiring choreographers interested in exploring and refining your creative passions and dance making skills.

Throughout the week, we will engage in movement improvisations from a diverse range of dance styles geared towards connecting with the way you feel inspired to move. We will investigate how to express ideas, emotions, concepts, images, and stories through your body with dance!

We will also study and explore different dance making techniques regarding the use of space, time, movement, and music! We will engage different writing prompts and discussions to connect to who you are and what you would like to express through the art of dance.

This camp will end with a showing of the dances developed throughout the week!

All levels of dance training and experience, as well as all dance styles are welcome to attend this camp!

Girls who participate in this camp may have their work selected to be featured in our **Girls Create Celebration** during the 2018 Athena Project Arts Festival, as well as the opportunity to continue working with a mentor in the months between summer camp and the March Festival, if desired.

Athena Project's mission is to empower women and strengthen the Denver community through developing and showcasing women's and girls' artistic contributions, while inviting new audiences into the creative process.
